**Call for a custom quote on Bamboo trees over 12 ft. Available from 2'-25' tall.
Can also be made in a hedge form.**

**** IFR (Inherent Fire Retardant) foliage option increases price of tree. See price list.**

GROW POT SIZES

Tree Height is measured from the floor to the top of the tree.
Overall spread is generally 3/8 to 1/2 the height.

Optional steel base plates or concrete bases available for all trees at an additional cost. Call for details.

DESCRIPTION:

Synthetic canes look absolutely real and will not split like natural canes do. They can be painted any color. The simulated nodes vary on each pole so that a repetitive pattern is avoided. Waterproof and fire retardant. Modular assembly reduces freight and provides very easy installation. Can be made in sizes 2'-25' tall.
