**Call for a custom quote on Ficus Alii trees over 10 ft. Available from 6'-35' tall.  
Can also be made in hedge and bush forms.**

\* **“Deluxe” denotes appx. 15%–20% more foliage, and additional trunks.**

\*\* Silk foliages which do not come with an IFR (Inherent Fire Retardant) option can be dipped in a fire retardant chemical. Our dipped fire retardant application will meet the NFPA 701 fire retardancy standards. Performing this process on the silk foliage adds an additional 30% to the cost of the tree.

**Tree Height** is measured from the floor to the top of the tree.

**Overall spread** is generally one-half the height.

Optional steel base plates available for all trees at an additional cost. Call for details.

## DESCRIPTION:

The foliage used on our Ficus Alii trees makes them indistinguishable from the real thing. The canopy simulates a real alii in spread and shape of the branching. The trunks are heavy caliper silver maple which best resembles the look of a real ficus alii. Can be made in sizes ranging from 6'–35'.
