Call for a custom quote on Weeping Oak trees over 12 ft. Available from 6'–35' tall.

* **“Deluxe” denotes appx. 15%–20% more foliage, and additional trunks.**

** Silk foliages which do not come with an IFR (Inherent Fire Retardant) option can be dipped in a fire retardant chemical. Our dipped fire retardant application will meet the NFPA 701 fire retardancy standards. Performing this process on the silk foliage adds an additional 30% to the cost of the tree.

GROW POT SIZES

Tree Height is measured from the floor to the top of the tree.

Overall spread is generally one-half the height.

Optional steel base plates available for all trees at an additional cost. Call for details.

DESCRIPTION:

Our Weeping Oak offers a lacy, more delicate foliage, giving the tree a wispy look whether on exotic curved trunks or the more traditional straight trunks. This can be decided when you custom order your tree. They can be made in sizes from 6' to 35' tall.
